7. Description

Inventory No. ^M14-32

Condition

<input type="checkbox"/> excellent	<input type="checkbox"/> deteriorated
<input type="checkbox"/> good	<input type="checkbox"/> ruins
<input type="checkbox"/> fair	<input type="checkbox"/> altered

Prepare both a one paragraph summary and a comprehensive description of the resource and its various elements as it exists today.

A tributary of the Magruder Branch originates on this property.

The dwelling, built in 1898, is set high on a knoll and is punctuated by a three story tower.

The main block is a three bay center cross gable dwelling that faces southeast. The entrance is in the center of the three bays and is sheltered by a one-story porch extends across this façade. A three-story polygonal tower stands on the east corner. There are windows on each façade of the tower and on each of the three levels. The tower is capped with a steep, polygonal, hipped roof. The front gable is lit by a lancet window.

Classical influence is found in gable end cornice returns, dogtooth cornice on the porch and capitals on the large, square porch columns. The front doorway has Greek Revival influence in its rectilinear design of transom and sidelights. The door is composed of a single pane in the upper portion and two vertical panels below. Sidelights have three panes each surmounting one vertical panel.

The main roof is covered with patterned metal shingles and punctuated by snow dogs at the eaves. Windows are replacement 1/1, double-glazed sash. The dwelling is mostly covered with stucco. The tower has new shingles with vinyl corner boards.

A two-story ell extends behind the main block. On the northeast side of the ell, sliding glass doors access a deck. The ell is filled in with a one-story addition. Another one-story addition extends to the northwest, beyond the end of the two-story ell.

A springhouse is located southeast of the house on the tributary of the Magruder Branch.

A bank barn that was located southwest of the house is no longer standing.

A one-story dwelling, probably a former tenant house, is located on the back of the neighboring Lot 20, at 23007 Wild Hunt Drive. The one-story concrete block structure has a Victorian-era door that may have been salvaged from the main dwelling.

Evaluation for:

☐ National Register

☐ Maryland Register

☐ not evaluated

Prepare a one-paragraph summary statement of significance addressing applicable criteria, followed by a narrative discussion of the history of the resource and its context. (For compliance projects, complete evaluation on a DOE Form - see manual.)

The James Rufus King House is a fine example of a local interpretation of late Victorian-era architecture. Built at the cusp of the 20th century, the resource represents the continued legacy of the King family and their extensive landholdings in the greater Damascus area.

The dwelling was built in 1898, two years after the marriage of James Rufus and Della King. For \$1208, King acquired the 151-acre property from his parents, Singleton L. and Mary R. E. King the year before.¹ The elder Kings had obtained the property in 1892.² James Rufus was the oldest of seven children. His grandfather was Singleton King, son of John Duckett King.³

In the early 20th century, the business was a tobacco and dairy farm. Access to the farm was improved when Watkins Road was platted in 1905.⁴ By 1913, the property of James Rufus King had grown to 233 acres. The Kings had seven children born between 1901 and 1916. The family attended the Wesley Grove Methodist Church where their children were baptized in 1919.⁵

Upon James' death in 1946, the property was described as a farm of 233 acres near Woodfield. The improvements included a two-story frame dwelling of eleven rooms and a bath, a cow barn, dairy barn with silo, two tenant houses, a hen house, corn house, garage, and other outbuildings.⁶

John L. and Mary Lee King assumed ownership of the farm until 1967.⁷ In 1972, the improvements were described as "a large frame and stucco residence, a barn, a milking station, and a garage." The property was subdivided with the house and bank barn on 15 acres. The Stablers subdivided the property in 1992, situating the house on its current 6.5-acre lot.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This is a three-bay farmhouse, with center gable. There is an open, one-story porch across the front. The central door has transom and sidelights. The most outstanding feature is the three-story, octagonal-shaped tower affixed to the SE corner of the front of the house. There are windows in each bay, at all three levels, and the tower is capped with a steep, conical roof. (The only similar home seen in the area is the Oliver Watkins Farm at Cedar Grove.)

There is a large bank barn nearby.

Prepare both a summary paragraph of significance and a general statement of history and support.

The King Farmhouse is a well maintained, late nineteenth century Victorian dwelling. The house is considerably more elaborate than the average rural home in Montgomery County; thus indicating the greater wealth and influence of the King family. Singleton Lewis and Mary R.E. King first settled here in 1871 and the Kings have resided in the area since. During the late nineteenth and early twentieth centuries the King family owned a number of farms in this area.

The single most outstanding architectural feature of this house is the octagonal-shaped tower capped with a steep conical roof, located at the front southeast corner of the house. Though this feature is less common in rural dwellings, it is found in another house nearby. The Oliver Watkins house (site #13-3), the mid nineteenth century home of a upper middle class farmer and merchant, is quite similar in design to the King house. The King house, however, has been covered with stucco, with the exception of the tower and the weatherboard and decorative shingles in the gable ends which have been left exposed. In Addition, a modern wing has been added to the rear which fortunately cannot be seen from the front of the house.

The King Farmhouse was built in 1898.¹ It was probably constructed by James R. King on land received just one year before, from Singleton and Mary King.² His original farm as obtained from Singleton and Mary consisted of 151 acres of "Watkins Range" and "Addition to Watkin's Range" tracts but, over the next sixteen years it grew to 233 acres. During the early twentieth century this was a crop, tobacco and dairy farm.³ James died in August of 1946 leaving eight children as his heirs. The property was then described as a farm of 233 acres near Woodfield. The improvements were listed as a two story frame dwelling of eleven rooms and a bath, a cow barn, dairy barn with a silo, two tenant houses, a hen house, corn house, garage and other outbuildings.⁴ The heirs sold the farm to their brother, John L. King and his wife, Mary Lee King.⁵

Cont.

They kept the farm until June of 1967 when it was sold to the present owners, Arthur Pincus and Robert R. Levick.⁶ The house is now for sale.

Also on the property are a number of outbuildings. Included is a chinked log barn, in very good condition, which most likely pre-dates the house by a good many years (probably as part of an earlier farm).
